

# New paint, Stripes and Lettering on our 1995 *Rialta* QD

I painted the skirting on the Rialta a Light Metallic Blue that I got from AutoZone. It is part of the new paint shop line from Dupli-Color. The lacquer based paint comes premixed and ready to shoot. I added several coats of clear to give it a nice shine and hopefully to protect the paint from fading like the old color did. I purchased 3 inch wide Red Reflective striping and a paint matching  $\frac{3}{4}$  inch Light Blue Metallic stripe to replace the old dark blue stripes. I also had new lettering made to match the stripes (Red with Metallic Blue border). A sample of the lettering can be found at the top of this page.

It gives the old Rialta a fresh new look. I got the stripes and lettering from <http://www.boatus.com> they have all types of striping and lettering and can custom make you just about anything in any color.

I used a different font from the original Rialta letters. I wanted something different that gave the motorhome a new look.

Next I have some new stereo equipment coming to install. A new touch screen dash is in the works.

See you on the road

*Robert*
